

ITCS 6156: Machine Learning

Homework 2

Student Name: Rajdeep R Rao

Student ID: 800972470

a) Explanation of status and stopping point, if incomplete.

Answer:

I have implemented said assignment, of performing Logistic Regression but only for the subset dataset. Not for the entire set

Report has been written and submitted with the assignment.

b) Explanation of additional functions and analysis, if any.

Answer:

None

c) Discuss the easy and challenging parts of the assignment. How did you overcome all or some of the challenges?

Answer:

This time around though, since I was a little better accustomed with the set up, I could find my way around the problems relatively more easily
